Single Use.
Stress Free.

SINGLE-USE ACETABULAR REAMER

MKT-008 Rev.01.

Surgeons are under more pressure than ever to deliver consistent outcomes and run an efficient OR. OsteoFit™ Single-Use Acetabular Reamers are designed to help you do exactly that — offering sharp, consistent performance and the peace of mind that comes from sterile, single-use instrumentation.

Clinical Advantages That Matter

- Reliable Outcomes
  A brand-new reamer for every case means optimal sharpness and precision. The result? Consistent, accurate bone preparation, improved implant seating, lower risk of thermal necrosis and reliable outcomes.
- Sterility Assurance
  Even minor sterility concerns with a reamer tray can force a complete OR reset, leading to 2-3 hours delays and significant schedule disruption. Disposable reamers remove this risk – protecting your time, your team, and your schedule.

Streamlined for Efficiency

- No Reprocessing, No Delays
  Skip the sterile processing bottleneck. With pre-sterile single-use reamers, there's no waiting for trays, no tracking, and no risk of missing instruments or torn wrap.
- Save Valuable OR Time
  A single-ream step with a new reamer avoids the need for sequential reaming and extra time taken with dull reamers. Faster setup and turnover translate directly into more efficient procedures — helping you stay on schedule and focused on the patient, not the instruments.

Financially Advantageous

- Cost Offsets That Add Up
  By reducing reprocessing labor, maintenance, and potential infection costs, single-use reamers offset their per-case cost.
- Drive Efficiency Gains
  A single-ream step plus fewer delays and reduced turnover time can improve OR efficiency and increase surgical throughput.

Why Surgeons and Hospitals are Making the Switch

Single-use acetabular reamers offer a clinically consistent, operationally streamlined, and financially responsible alternative to reusable systems. You gain sharper instruments, safer procedures, and smoother workflows — all while supporting your hospital's quality and efficiency goals.

ADDITIONAL SIZES AVAILABLE IN 2026

COLOR CODED SIZING INDICATION

45mm to 58mm in 1mm increments

PART NUMBER	DESCRIPTION
11-100-0045	45mm Single-Use Acetabular Reamer
11-100-0046	46mm Single-Use Acetabular Reamer
11-100-0047	47mm Single-Use Acetabular Reamer
11-100-0048	48mm Single-Use Acetabular Reamer
11-100-0049	49mm Single-Use Acetabular Reamer
11-100-0050	50mm Single-Use Acetabular Reamer
11-100-0051	51mm Single-Use Acetabular Reamer
11-100-0052	52mm Single-Use Acetabular Reamer
11-100-0053	53mm Single-Use Acetabular Reamer
11-100-0054	54mm Single-Use Acetabular Reamer
11-100-0055	55mm Single-Use Acetabular Reamer
11-100-0056	56mm Single-Use Acetabular Reamer
11-100-0057	57mm Single-Use Acetabular Reamer
11-100-0058	58mm Single-Use Acetabular Reamer
